MLS ownership of selection, coordination, and arrangement

For purposes of this page, the terms “you” or “your” refers to you, as a licensee, participant or user of the Monmouth Ocean Regional MLS (“MLS”) System.

When you put listing content and related information into the MLS System you make decisions to classify, categorize, order, and group material or data. In copyright-law terms, you are “selecting,” “coordinating,” and “arranging” this information, and these acts are components of a

“compilation copyright.” Pursuant to MLS’s policies, MLS owns the compilation copyright in the MLS databases and as a condition of accessing the MLS System, you must agree that your provision of the selection, coordination, and arrangement to the MLS System is a work made for hire under the Copyright Act of 1976. If for any reason it cannot be provided as a work made for hire, you agree to assign your selection, coordination, and arrangement in the MLS System to MLS.

Your agreement that the selection, coordination, and arrangement is a work for hire or to assign the same in the event it is not provided as a work for hire, does not change ownership of the original text (like public remarks), photographs, or videos that you create for your listings.

This changes your legal rights and if you have any questions about it you should consult an attorney.

By proceeding you AGREE and assert that the selection, coordination, and arrangement that you contribute to MLS database compilation is a work made for hire on behalf of MLS and that MLS is author of those works for purposes of copyright, or in the alternative, to assign and hereby do assign any copyright in the selection, coordination, and arrangement you contribute to MLS’s database compilation to MLS. If you DO NOT AGREE that the selection, coordination, and arrangement you contribute to be a work made for hire or to assign the selection, coordination, and arrangement you contribute, you understand you will not be permitted further access to the MLS System.
